Examiner: Alexander Williams

Applicant's election of species of figures 1-5 (claims 1-13, 17-21, 24-32 and 35-42), filed 9/7/04, has been acknowledged.

This application contains claims 14-16, 22, 23, 33 and 34 drawn to an invention non-elected without traverse.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9-13, 17-21, 24-32 and 35-45, drawn to a semi-finished circuit board assembly, classified in class 257; subclass 686.
- II. Claims 1-8, drawn to a method of operating a circuit board, classified in class 438, subclass 15+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the

instant case the step of mounting said bottom units to the circuit boards being performed while the top connections of the bottom units are unfilled, and wherein said step of mounting the packaged chips to the top connection of said bottom units is performed after said step of mounting said bottom units to circuit boards, can be performed before the top connections of the bottom units are unfilled and the step of mounting the packaged chips to the top connection of said bottom units is performed can be before the step of mounting said bottom units to circuit board.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
